Objective

Hello I'm Akhil, I am currently pursuing Computer Science Engineering, I have serious passion for web development and creating dynamic user experiences.

Most of my coding experience were based on HTML, CSS, JavaScript & React JS, but I have played in the past with some other things like C, Python. Self-motivated, highly passionate and hardworking fresher looking for an opportunity to work in a challenging organization to utilize my skills and knowledge to work for the growth of the organization.

Interested in everything that involves building the web.

Experience

The Entrepreneurship Network

(Jun, 2021 - Present)

React developer

[React JS](#) [JavaScript](#) [HTML](#) [CSS](#)

Developing new user-facing features using React.js - Building reusable components and front-end libraries for future use - Translating designs and wireframes into high quality code - Optimizing components for maximum performance across a vast array of web-capable devices and browsers

PES INSTITUTE OF TECHNOLOGY & MANAGEMENT

CGPA / Percentage: 88

(2018)

PES INSTITUTE OF TECHNOLOGY & MANAGEMENT

CGPA / Percentage: 89

(2016)

Projects

Netflix Clone

(Feb, 2021 - Feb, 2021)

<https://netflix-sv.netlifyapp/movie>

[React Js](#) [HTML](#) [styled-components\(CSS\)](#) [Firebase](#) [movie-db API](#) [Javascript](#) [GIT](#)

This project is built with React JS & API , where user can see popular, trending and upcoming movies on Homepage and by clicking on specific movies bring you all data about the movie including cast , duration, rating and many more. Use the Search bar to find you favorites movies and their information.

Blog house

(Apr, 2021 - May, 2021)

<https://jokesbook.netlify.app>

[React JS](#) [JavaScript](#) [Firebase](#) [styled-components\(CSS\)](#) [HTML](#) [GIT](#)

This project is a client-server Progressive Web Application(PWA) built with React JS for front-end & Firebase for backend and database, I've also included styled-components which enable us to toggle between light & dark theme.

Demo Food ordering app (Jan, 2021 - Jan, 2021)

<https://react-thali.netlify.app>

JavaScript HTML CSS

This is a frontend project where user is free to choose their own food items for their meal , it allows user to filter the food items according to their taste and there is also a cart type system where user can see their selected food items and total prize of the meal.

Certifications

Responsive Web Design (Feb, 2021 - Mar, 2021)

freecodecamp
